VOL. V.

SIERRA MADRE, LOS ANGELES COUNTY, CALIFORNIA, FRIDAY, OCTOBER 21, 1910

NO. 3.

## MEETING OF THE CITY TRUSTEES

### NEW FIRE CHIEF IS NAMED

Street Work, Dog Muzzles and Street Trees Also Come in for a Share of Attention

To muzzle or not to muzzle, furnished material for the nearest approach to an exciting discussion at last evening's meeting of the city trustees. The final conclusion was that so long as the ordinance is in force it ought to be enforced, regardless of personal opinions as to the efficacy of such measures. It was evident that the demand in last week's News for the enforcement or repeal of the ordinance had been voiced to every member of the board from a large number of other sources. At any rate all were able to see that they were making themselves ridiculous by not insisting on strict enforcement of the ordinance by the city marshal.

In this connection the idea has occurred to several people that right now is a good time to find out just to what extent the marshal is disposed to enforce this and a lot of other laws which are now practically dead letters. There is now pending an ordinance designed to increase the salary of the marshal. The figure set in this ordinance, \$25 a month, is not too large for an officer reasonably efficient. But there will probably be a sharp protest against the passage of the ordinance unless the incumbent first shows himself capable and disposed to make good.

Trustee Hosmer named over three dogs which were all he knew to be muzzled according to law. Just at the moment "Bingo," the editor's bull pup, answered "present" by scratching on the city hall door with the evident desire to show that he was wearing the prescribed fashion of wire face covering, and Mr. Hosmer had to add another to his list.

To fill the vacant position of chief of the fire department Trustee Hosmer moved and Trustee Pegler seconded the motion that Greer Caskey be elected. The selection was made unanimously. The re-organization of the fire department was urged and the new chief was instructed to have made some repairs and alterations on the hose cart which were requested by the old department just before disbanding.

City Engineer Bixby asked for leave of absence for a period of two weeks owing to prospective absence from the county. The request was granted.

S. R. Winter appeared before the board to request permission to remove the rows of pine trees in the parkings adjoining his place on Sunnyside and Manzanita Avenues. He says the trees effect loss to his lemon orchard to the extent of \$200 yearly. The request was referred to the park commission.

Tom Leopardi, the barber, was hurt by being thrown from a horse this morning. His injuries were so serious as to make it necessary to remove him to the Pasadena hospital.

## WORTHY CHARITY

Several Sierra Madre people have become interested in the Marsh family, residing on Grand View avenue. Mr. Marsh, the father, is low with tubercular trouble and, with a wife and six small children, is without means of support. The slender means which they possessed when coming here have been exhausted. Various people here have aided from time to time, but unsystematically, so that it has been at times an alternation between a "feast and a famine." In order that what is given may be more regular Mayor Jones appointed a committee consisting of Mrs. Jensen, the municipal nurse, Mrs. Goodfellow, and Messrs. C. F. Gray and T. M. Webster, who will receive contributions of money, food or clothing and see that it is properly used. Citizens wishing to aid in this worthy cause may do so by communicating with any of the members of the committee.

## VACANT HOUSES FILLING UP

So great has been the demand for houses of late that the real estate men find themselves hard put to accommodate the newcomers who are flocking to Sierra Madre. It became evident several weeks ago that the winter contingent were coming in much earlier than at any similar time for several years. There are said to be fewer houses available for renting now than for a long while. Let them come. Some means will be found for taking care of them, in hopes they will become so enamoured of the place that they will make it their permanent home.

## CONGREGATIONAL CHURCH

First Congregational Church, Rev. James M. Campbell, D. D., pastor. Sunday School, 9:45 a. m.; morning service 11 a. m.; subject of pastor's discourse "Power Through Personality." Christian Endeavor, 6:45 p. m., topic "The Chances We Miss." Evening service, 7:30. Subject of sermon, "Sonship and Service." Prayer meeting Wednesday evening at 7:30. Theme of meditation and study, "The Healing of Souls."

The battle was going against him. The commander-in-chief, himself ruler of the South American republic, sent an aide to the rear, ordering General Blanco to bring up his regiment at once. Ten minutes passed; but it didn't come. Twenty, thirty, an hour—still no regiment. The aide came tearing back, hatless, breathless. "My regiment! My regiment! Where is it? Where is it?" shrieked the commander. "General," answered the excited aide, "Blanco started it all right, but there are a couple of drunken Americans down the road and they won't let it go."—Exchange.

A member of an eminent St. Louis law firm went to Chicago to consult a client. When he arrived he found that he had unaccountably forgotten the client's name. He telegraphed his partner, "What is our client's name?" The answer read, "Brown, Walter E. Yours is Allen, William B."—Ex.

## VISITED BY CLASSMATE

Prof. and Mrs. E. T. Pierce enjoyed a visit this week from Dr. and Mrs. W. M. Griffin of Chicago. The doctor was a classmate of Prof. Pierce at the New York State Normal college of Albany. He is a teacher of prominence, ex-president of the Chicago Normal School, a voluminous author of school text books and a lecturer of prominence. He and Mrs. Griffin are spending the winter in California, being located at present in Long Beach. Later they will make Prof. and Mrs. Pierce a lengthy visit. Dr. Griffin and Prof. Pierce were the first two graduates of the New York State Normal College to receive the honorary degrees of Doctor of Pedagogy and their visit was a source of particular pleasure to them.

## DR. D. F. FOX TO SPEAK

At the men's banquet to be given at the Congregational Church on Friday evening of next week the speaker of the evening will be Rev. Daniel F. Fox, D. D., of the First Congregational church, Pasadena. Dr. Fox is one of the best known platform lecturers of the country. He came to Pasadena from Chicago but a few months ago and has been exceedingly popular on the lecture platform of the middle west for several years. Since coming to Pasadena he demand upon his time and strength has been so great that he found it necessary to cut out all speaking engagements. It is only by reason of their long standing friendship that Dr. Campbell was able to secure him for this occasion. The subject of his discourse will be "The Place of Emphasis," said to be his best effort.

## EL REPOSO NOT CLOSED

Somehow the report that El Reposo Sanatorium had been closed has gained circulation, though without a grain of truth for foundation. On the contrary, declares Mrs. Lund, the superintendent, the sanatorium has more patients than ever before and more are coming in right along. In one or two cases prospective patients have been kept away by the reports of the closing of the sanatorium.

## EPISCOPAL CHURCH

Church of the Ascension, the Rev. Dr. George H. Cornell, Rector. Twenty-second Sunday after Trinity. Holy Communion 7:30 a. m.; Sunday School and rector's Bible class, 9:45 a. m.; morning prayer and sermon, 11 a. m. Evening prayer and address, 7:30. All are cordially invited.

## RAINFALL RECORD

Total to date	.....	.56
Rainfall for corresponding period in 1909 was .82 inches.		

## SIMPLE METHOD OF SANITATION

### PLAN FOR GARBAGE DISPOSAL

City Engineer Bixby Presents Outline of Underlying Principles With The Remedy

By W. F. Bixby, Associate Member Am. Society of Civil Engineers.

"I hold every man a debtor to his profession; from the which, as men of course do seek to receive countenance and profit, so ought they of duty to endeavor themselves by way of amends to be a help and ornament thereof."—Bacon.

Unsanitary surroundings are not the awful danger to health that they are at times supposed to be. Humanity has lived for ages in the midst of filthy spots; districts populated with people who knew nothing and cared nothing about cleanliness; the people lived through it, when according to advanced sanitarians, they should have died. Many fanciful tales have been told of the dangers of filth, while the real truth is that they are simply a menace. This word is used advisedly; accumulated garbage and sewage is a decided menace. Smells are not dangerous; they are rarely, if ever, a cause of illness. They are simply unpleasant to our modern sense of what is right and proper.

Where the danger comes in, is that people who live in places surrounded by, or even in the immediate neighborhood of decaying matter in all stages of putrefaction do not breathe pure air. The constant breathing of this impure air lowers the vitality, undermines the stamina of the body; whence the system, when illness comes, cannot bear up under the attack unless the sufferer can be removed or pure air secured.

Too much filth is always a distinct menace, especially the wastes of living (or dying) of people ill with an infectious disease. If waste matters accumulate until decomposition has reached an advanced stage, flies, rats or other pests may carry some of the matter to food and infect it or may carry it where it will be a poison to some one sick or in poor enough health to be dangerously affected; or the decaying matter may dry and fine dust-like particles be blown by the wind into contact with a person having some harmless or simple affection and cause the disease to assume a contagious or infectious form.

The reason for the statement that unsanitary surroundings are not dangerous is that we are protected by micro-organisms; organic matter, under natural conditions, is broken up by their aid. Among these micro organisms are two classes of active health protectors known respectively as aerobes and anaerobes. When house refuse is left exposed to the air aerobic bacteria seize upon the organic matter, splitting it into simpler compounds which are further oxidized by the air left by the organisms. Gases liberated by the aerobes are at once oxidized by the

(Continued on Page 4)

### WOMAN'S CLUB

At the regular session of the Woman's Club on Monday afternoon of next week a program of contralto music will be given by Miss Mary Carter who has just returned from a three year course of study in Europe. She possesses a rich, dramatic contralto voice and will be accompanied by Mrs. W. H. Jamison, president of the Lyric Club of Los Angeles. Mrs. Jamison is well known to Sierra Madre people, having entertained the Musical club. She has many personal friends here. In the world of music she is known as Abbie Norton Jamison, composer of vocal and instrumental music.

The "Cafe Chantant" will be held this evening at the club house. A diversified program will be given with musical numbers by Mrs. F. H. Lanphear, Misses Gertrude Cook, Edna Staples, Marjorie Rice, Mr. Lewis of Los Angeles and Mr. Fish of El Reposo. Miss Eleanor Anderson of Venice will do fancy dancing. Victor records will be played between the regular numbers. Tables and chairs will be placed all through the building and light refreshments will be served a la carte. An admission fee of 25 cents will be charged at the door.

The juvenile dancing class will hold its first session tomorrow afternoon at two o'clock. Arrangements for the season can be made during the class.

### NEED FOR MUZZLING

A case of true and virulent rabies having developed in the dog of one of the members of the health committee of the Woman's Club there has been hasty consultation among them as to how they might best aid in minimizing the danger to the towns. As all has been done that could be, so far as this one dog was concerned, it was decided to add our mite in support of the wise ruling of the Health Board. Perhaps with this thought we cannot do better than quote medical authority. Sajous' Annual says:

"The hope of recovery from true, well-marked rabies is very slight, death ensuing after a few days in almost every instance. This refers

to developed cases, not those treated before the disease shows itself.

The same authority says: "During an outbreak of rabies it is not possible to locate and secure all infected animals. All dogs in the district should be muzzled."

Is there any one in Sierra Madre who considers the temporary discomfort of a pet dog greater than the value of a human life? "By their deeds ye shall know them."

CONTRIBUTED.

### ODD FELLOWS

#### ENDORSE EXPOSITION

The Grand Encampment, I. O. O. F., at its annual session at Santa Ana, on October 7, unanimously adopted the following resolution endorsing the Panama-Pacific Exposition at San Francisco in 1915:

Resolved, That the Grand Encampment heartily endorses and approves the holding of the Panama-Pacific Exposition in California in 1915, and requests its members, individually and collectively, to use their best efforts and influence in local, State and National matters that shall culminate in assembling not only the people of our own Republic, but the nations of the world, in our Golden State at the completion of this great enterprise.

### AN ENORMOUS PLEDGE.

Commenting editorially on the action of the legislature in passing the way to add \$10,000,000 to the San Francisco Panama-Pacific Exposition fund the Heraldsburg Enterprise says:

"It is recognized that the exposition would be of great benefit to the whole coast if only from an advertising point of view. In order that the United States government may take official notice of the fair it is necessary that these bonds be voted. This \$10,000,000 together with the \$7,500,000 already subscribed by San Francisco will enable California to go to the opening of the session and offer the United States an enormous pledge that it is able to finance and conduct an exposition that will be a credit to the nation."

### EL REPOSO HAPPENINGS

The first of the Sunday services to be held this fall at El Reposo was held last week in the Clubhouse and was attended with a great deal of interest and pleasure by a large proportion of the members of the community. Rev. J. M. Campbell, D. D., led the services, giving also a very apt and spirited little address. His extemporaneous and genial manner of speaking won him many friends. Miss Humphries played the piano in lieu of a church organ, and a charming duet was given by Miss Elsie Caskey and Miss Cook. Mr. Gillman assisted in the singing. Such services are to be held at El Reposo on the second Sunday of each month during the winter.

Since approaching cool weather a few days ago threatened to drive people indoors for amusement, the clubhouse at El Reposo has been re-fitted.

Among the recent guests at El Reposo is Senora Dona Maclovio de Gonzalez, whose daughter, Senorita Maria Rosa Gonzalez has entered the Sanatorium. Senora Gonzalez is making her first visit to California, having recently come with a party of friends and members of her family from the city of Guadalajara, where the family has a very beautiful summer home. Senor Don Constancio Gonzalez, who has extensive financial interests in Mexico, is expected shortly in California. The youth and exceptional beauty of the senorita make one easily believe the Spanish romances of Castilian days.

Mr. and Mrs. Lyman J. Gage of San Diego were recent visitors at El Reposo.

Mr. Fish, the interpreter for the Gonzalez household, is among those who are to take part in the entertainment at the Woman's Club tomorrow evening, which promises to be delightful. Mr. Fish, on his mother's side, is of pure Spanish descent, and is to sing a composition of the modern Spanish poet, Alvares. The song is typical of the mournful and appealing melodies of old Castile. To appreciate it fully the story should

be understood. The song is supposed to be the lament of one of the ancient Moors exiled from Spain, knowing that he is bidding farewell forever to the land of his birth, being driven forth by an implacable royal edict, never to return. "Farewell, Oh Mountains of Granada!" is the repeated wail in the song. There is great power in the music to make one seem actually to feel the lament of this people whose sorrows and sufferings darken the fifteenth century of Mediaeval Spanish history.

## Brief Items of Interest

Charles Terstegen spent Tuesday in Monrovia.

Miss Eleanor Anderson of Venice is the guest of Mrs. Frank Wright.

Captain and Mrs. J. A. Osgood had as a week-end guest Mrs. Rhoades of San Francisco.

Mrs. Tripp of Los Angeles is visiting at the home of her brother, Calvin Gruendyke.

Mrs. F. J. Garey has moved into the cottage owned by O. K. Jarnett on Lima Street.

Mrs. H. G. Flint is expected to return today from a stay of several weeks in the east.

Mrs. R. H. Hudson of Los Angeles was the guest of Mrs. Wm. Knapp a few days this week.

Mrs. T. D. Veon, a recent resident of Sierra Madre, has gone to Arizona to join her husband.

Mrs. Rhoades of San Francisco had as a luncheon guest in Los Angeles on Tuesday Mrs. J. C. Dickson of Sierra Madre.

Mrs. George Sinsabaugh of Los Angeles, who returned recently from Europe, was looking after her property in Sierra Madre yesterday.

Mrs. A. S. Moore of Carter Avenue, her son-in-law, S. A. Roberts, and her grandson, Don Mitchell, left Tuesday morning for a week's stay at Catalina.

Mr. and Mrs. J. V. Bartow of Long Beach are spending a few days at their place on Carter Avenue. They have as guests Mrs. Bartow's brothers and their wives, of Colorado.

A. N. Quale and Miss Anna Quale have removed to Los Angeles after spending a year in Sierra Madre. Their brother who arrived recently from the east will reside with them.

Mr. and Mrs. E. N. Mead entertained at dinner on Sunday Mr. and Mrs. A. S. Mead and family and Mr. and Mrs. E. N. Mead of Santa Monica.

Mrs. L. C. Torrance entertained several ladies very charmingly at luncheon on Tuesday, her guests being Mes. Carhart, Collins, W. S. Andrews, Letteau, Lawless, F. J. Hart.

A. S. Mead has rented one of the Kimball houses on Auburn to H. M. Wade and family of Los Angeles. Mr. Wade is business manager of "The Tidings," the well known Catholic magazine.

Miss Lulu Bixby of Pasadena, a former resident of Sierra Madre, spent Thursday in this city visiting friends and attending the meeting of the Modern Priscillas of which organization she is a member.

Several Sierra Madre ladies attended the opening of the flower show in Whittier on Thursday, the exhibition continuing Friday and Saturday. The ladies in the party were Mes. F. J. Hart, C. E. Carhart, G. H. Letteau, C. W. Mitchell, M. Holohan, S. R. Winter.

The News was in error last week in saying that Charles Camp had killed a deer, the report probably coming from some one who had seen him assisting C. F. Gray bring one down from the boys' cabin. That Gray's buck was about as good eating as one could wish for is the testimony of the editor of the News, who was favored with a fine chunk from the shoulder. People who are acquainted with the hunting inclinations of Charles Camp know that he would much prefer a camera to a gun for shooting a buck. And there is much to be said in favor of his style of marksmanship.

Mr. and Mrs. H. C. Churchill spent the week-end at Riverside.

Mr. and Mrs. H. E. C. Webb are occupying the Hudson cottage on Auburn Avenue.

Mr. and Mrs. Peeters of Glendora have rented the cottage belonging to Ben Craven.

The Modern Priscillas were entertained yesterday afternoon by the Misses Blumer.

Mrs. W. S. Andrews entertained the Ancient Priscillas at her home Tuesday afternoon.

Miss A. J. Johnson of Los Angeles spent a few days in Sierra Madre this week visiting friends.

Mr. and Mrs. E. W. Mead of Santa Monica spent the week-end visiting Sierra Madre relatives.

Mrs. N. L. Beuhring was the luncheon guest of Mrs. J. L. Ames of Los Angeles on Wednesday.

Twycross has rented one of the Mather cottages to Mrs. Carrie Sage Horning and family, who spent last winter in Sierra Madre.

Mr. and Mrs. M. D. Wright have removed from Hill Crest Villa on the Churchill ranch to their cottage near the head of Mountain Trail Avenue.

Miss T. H. Graham has gone to her former home in Tennessee for a visit with relatives. On her return she will occupy her palatial new residence on Lima street.

S. H. Spafford has left the Sierra Madre Hardware Company store and will devote his attention to his ranch. J. A. Kimball will take charge of the store in his stead.

Mr. and Mrs. Gardner of Boston and Miss Hornby of Adrienne, Michigan, who have recently arrived in Pasadena, were guests of Mr. and Mrs. Charles Hall Perry on Sunday.

Miss Helen Peterson and Mr. Herbert Peterson of St. Paul, Minnesota arrived Wednesday and will spend the winter here. They are guests at the home of their aunt, Mrs. Howard Hill.

The fine tennis court being laid out by Mr. and Mrs. F. P. Conard is nearing completion. It will be one of the finest in this vicinity and will be a source of great delight to them and their friends.

The ladies of the Episcopal Church are busily preparing for their annual bazaar which will be held at the Woman's Club House November 16 and 17. Holiday articles of all descriptions will be on sale both afternoons and the evenings will be occupied by a very interesting entertainment which is in course of preparation.

## What Autumn Leaves

The melancholy days have come  
For persons naturally glum.  
But for the man whose liver's right  
These Autumn days are pure delight.

## BY THE WAY

Overshadowing politics, dynamite plots, airship flights, baseball championships and everything else but new fall clothes in the minds of the ladies of Sierra Madre is the question, "What kind of a gas stove shall I get?"

Theodore Bell is making a noble effort but who cares for politics when there is a baseball championship series on the bulletin board? Bell might as well resign himself to the usual republican victory because there are limitations to the number of things to which people can give attention at one time.

Walter Wellman retains his place as the most spectacular newspaper man in the world. Single handed he can put it all over Willie Hearst with his chain of newspapers. And while he did not reach his desired destination he put himself in the lead for long range flying as well as for long range political forecasting.

Attention is called to the thoughtful and suggestive article in this issue of the News by City Engineer W. F. Bixby. It is well worth a careful reading, which will serve to throw light on a problem of vital importance. By the very simple method outlined the problem could be solved by practically every family in town. For the present this can be done without waiting for the general collection of garbage, which will have to be provided for sooner or later.

Commenting on Roosevelt's famous letter to Lissner, advocating the election of Hiram Johnson and the rest of the Republican ticket in California, The Compton Enterprise says: "That sounds funny, for Theodore to advocate the election of a Democratic ticket, for that is what it means as the Good Government League has indorsed Democratic nominees in several instances simply because some of those elected were not indorsed by the Lincoln-Roosevelt League before the primary." Brother Bennet either has his wires crossed or has not come out of the daze following the shock of the primary count. For his benefit and that of a few others who have not yet found out who are the regular republicans in California here are a few facts: Meyer Lissner is no longer the head of the Good Government organization. The latter is purely a Los Angeles county institution and has nothing to do with the state tickets of the various parties, except in the case of judicial candidates. But Meyer Lissner is the head of the

state Republican organization, ergo the most regular Republican in California. It was to Chairman Lissner in his official capacity that Roosevelt wrote it would be a setback to the cause of good government all over the country to have the state Republican ticket defeated at the polls. And so it would. For the party has succeeded in purging itself of corrupt rule and for the people of a normally Republican state to refuse to elect a clean Republican ticket when they have a chance would certainly look as if the people really do not care for decent government. Hurry up, Jim—there is still room in the band wagon but the time is growing short.

## SIMPLE METHOD OF SANITATION

[Continued from Page 1]

air, in the presence of moisture, into acids. Anaerobes secure oxygen from the complex organic substances which are split into simpler compounds by the abstraction of the oxygen; hence aerobes do not require contact with the air. Anaerobic gases are thrown off and give rise to disagreeable odors, but, as before stated, they are not dangerous. Both classes, however, are necessary. If balanced properly in numbers as they will balance under proper conditions they will render innocuous heaps of filth.

The way therefore to dispose of garbage and waste matter is to put it where it can be treated by the proper scavengers in the right way.

Before beginning the discussion of how this may be brought about, a few definitions will not be out of place, as the individual understanding or misunderstanding of a definition is the basis of nearly all argument. Garbage consists of solid, organic household wastes and the organic wastes of living. That portion of foods rejected in the preparation of meals and the scrapings from the tables comprise the greater bulk of garbage.

Refuse is non-putrefactive matter and street sweepings. Tin cans, bottles, broken crockery, rags, paper and ashes comprise the greater bulk of house refuse.

Filth is foul "matter out of place." We know that perfect cleanliness pays from the sense of personal cleanliness it gives, if for no other reason. A sense of pride and right living go far toward making healthful surroundings; a civic pride makes a beautiful city.

Sometimes it is believed the people themselves will do much to help the authorities in making a healthful city; they do, in fact, make private contracts for work properly belonging to the city. All cities should be willing to go to considerable expense to prevent the accumulation of filth and to ensure clean streets and alleys. The city failing therein takes chances of pestilence; the people permitting it take chances of illness and debility.

The ideal method of garbage disposal (where the population does not warrant incineration) is to bury it on land somewhat removed from dwellings. By putting six inches of earth over the garbage a thickness of nine inches of garbage can be disposed of. A knowledge of the nitrifying and purifying properties of fresh soil assures on that such a plan can be adopted without offense. The content of animal matter is so small, bones and meat trimmings not exceeding 5 per cent, that no possible injury will be done to the land for agriculture by over-fertilization

## List Your Property

We are revising our property listings for the Fall's business, and would like to have yours re-listed to date. Come in and talk this over. We might be able to help you

A. S. Mead,

REAL ESTATE

The method of accomplishing this disposal is as follows: A trench a foot deep and two to three feet wide is dug; the length of trench being determined by the amount of garbage to be disposed of. Each day's accumulation of garbage of the community, or even from the houses on one street or block, if the families thereon will so combine and contribute to have this work performed, is placed in the trench to a depth of six to nine inches. Along side of this trench a second is started, the fresh earth being used to cover the garbage placed in the first each day when the first trench has been filled the second has been excavated, the process being continued as the need requires. The land so used one season may be planted to vegetables the following season.

This method can be followed on a small scale where there is space in the rear of large lots; as for instance in circular trenches around fruit trees, the trench being kept several feet from the trunk of the tree. Garbage pits in backyards, when left open for weeks, as is common practice, become very offensive.

Garbage should be placed in tight tin or galvanized iron cans with close fitting covers, after first draining off the surplus water. The can should be emptied at least twice a week. Ashes and empty tins are not garbage and should be placed in asphalt receptacles. Rags and paper and trimmings of vines can be safely burned in a wire basket.

The "package-garbage" system is a recent innovation where the city provides the means of disposal. A city ordinance requires that all garbage shall be wrapped in paper before being deposited in garbage cans. The paper wrappings, it is found, prevent the garbage from attracting

flies, and by doing away with filthy accumulations in the linings of cans, prevent fly breeding. The package-garbage plan decreases the cost of garbage disposal because the number of collection trips is reduced one-half, from the fact that decay is retarded because of the air space between the packages, and because the garbage enclosed is comparatively dry. The quantity of garbage which has to be hauled away is lessened also, as people drain into their sinks quantities of liquid and semi-liquid wastes which are hard to handle and heavy to haul.

The health authorities find that the housekeepers take kindly to draining the liquid from the slops when necessary and wrapping the table wastes in old newspapers or waste wrapping paper kept conveniently near the sink. They find it preferable to scouring greasy slop cans and scrubbing up after the garbage man. They are most impressed because it eliminates the swarming flies and offensive odors.

## ANOTHER PROPOSITION

All summer she has kept her sleeves rolled up—her arms are brown; But home again, with work to do, She promptly rolls them down.  
—Detroit Free Press.

Customer—I want to get some gloves for my wife. Salesgirl—What kind, sir? Customer—Very Cranky.—Life.

"This is the fourth time you have asked me to marry you," said the good-looking girl, resentfully. "I am sure I have never encouraged you." "I don't know about that," replied the serious young man. "You're the only girl I know who doesn't laugh when I propose to her."—Washington Star.

## BIG ADVERTISEMENT FOR CALIFORNIA

### San Francisco and Entire State Will Benefit Through Publicity

It pays to advertise. Any business man will tell you that. But what a great many people do not realize is that advertising—judicious advertising—pays the advertiser, whether the advertiser be a business man, a city or a State.

The census returns show a healthy growth in the great majority of cities throughout the United States but the greatest average increase in population is found in those communities that have followed a course of systematically advertising their superior advantages in climate, and in commercial and industrial possibilities.

A striking example of the benefits of municipal advertising, as illustrated by census returns, is shown in a recent press dispatch from Washington giving the completed figures from four cities. The city of Jacksonville, Florida, heads the list with an increase of 103 per cent. This is a wonderful increase and way beyond anything shown by the other cities included in the report.

The explanation is simple. The city of Jacksonville has been a generous and consistent advertiser. Henry M. Flagler has expended \$2,000,000 in telling the world about Florida, and about the beautiful and progressive Jacksonville and the world has responded. Florida has grown and developed remarkably in ten years and Jacksonville has shared in the general prosperity.

The advertising that San Francisco is receiving and will continue to receive for the next five years will bring results equal to those shown in the Jacksonville returns. Not a dollar of money that is being spent by San Francisco in the fight for the Panama-Exposition will be wasted. It is an investment, and an immensely profitable one whether the fight for the fair is won or lost, and as we are going to win, the investment will be doubly profitable.

#### THE LOGICAL PLACE.

That San Francisco is the logical place to hold the world's fair in 1915 could not be denied by even the fairest minded people of New Orleans. There is no harbor to New Orleans; it is inland 100 miles, on a river, but no place to invite the navies of the world, and that will be half a show of itself. It is to celebrate the bringing ocean to ocean together, and with the finest harbor in the world San Francisco is entitled to it. Let's boost San Francisco and California.—Acton Rooster.

#### ENDORSE SAN FRANCISCO.

Resolutions endorsing the proposed Panama-Pacific Exposition for San Francisco have been adopted by the Stanislaus Board of Trade. This action was taken in response to a request from the Chamber of Commerce of San Francisco, the proposition meeting the hearty approval of the members of the Board of Trade who feel that San Francisco's interests are closely related to the best interests of the San Joaquin valley.

JUDGE M. C. SLOSS

Judge M. C. Sloss, incumbent of the office of Associate Justice of the Supreme Court, who was high man in the August primary, from all present indications, will duplicate this feat in the general election on November 8th. Judge Sloss has attracted the general attention of the lawyers of this and other states by the legal learning displayed in his decisions. Appointed by Governor Pardee to the supreme court to fill the vacancy caused by the death of Judge Van Dyke in 1905 and then elected by the people to fill out the unexpired term, Judge Sloss has, by his force of character and ability, become the best known and most highly respected man on the bench in California. The people have wisely determined that honesty and ability shall have their reward and that the services of such a man shall not be lost to the state. Judge Sloss is in hearty accord with the progressive spirit of the times and the planks adopted by the Republican party in their convention at San Francisco.

#### ALBERT LEE STEPHENS

Albert Lee Stephens was born in Indiana in 1874 and has been a resident of Los Angeles twenty-seven years. He began practicing law in Los Angeles in 1900, also studying and teaching law at the University of California, receiving therefrom the degree of LL. B. in 1903. Since graduating he has delivered a popular course of lectures each year for the benefit of the law students. In 1906, at the solicitations of many members of the bar, he was nominated by the Democratic party and the Non-Partisan Committee for the office of township justice, and was elected by a large plurality.

For the past four years he has been one of the hardest worked judges in Los Angeles county and has earned promotion by hard service and proven his qualifications by demonstrating exceptional ability to get at the justice underlying a law suit, disregarding technicalities wherever possible.

His term as Township Justice expiring this year he was nominated at the primary election for Judge of the Superior Court on the Democratic ticket and afterward endorsed for the same office by the Good Government organization and nominated by petition to run on that ticket.

Among the large element of both parties who believe in a non-partisan judiciary the candidacy of Mr. She-

phens is received with particular satisfaction. A non-partisan bench is endorsed by the platforms of both parties in this state. Typical of the feeling of many leading Republicans toward him is the following endorsement from Mayor Alexander of Los Angeles:

"Albert Lea Stephens has made good as a judicial officer and I most heartily endorse his candidacy for Judge of the Superior Court."

"GEORGE ALEXANDER."

#### EDITORS FOR EXPOSITION TAX

Members of California Press Association Will Work for Amendments.

The California Press Association has unanimously and unqualifiedly endorsed the San Francisco Panama-Pacific Exposition project. Seventy-five members of the Association, all prominent newspaper editors and managers, held a three days' conference in San Francisco October 7, 8 and 9, and after a thorough discussion of the subject, pledged themselves to work for the passage of the two proposed constitutional amendments by which \$10,000,000 will be added to the Exposition fund.

The resolutions adopted contain the following paragraph having particular reference to the State tax:

"This convention heartily endorses the State tax on \$5,000,000 to be devoted to the funds of an International Exposition to be held in San Francisco in 1915."

"And why are you here, my poor man?" asked the visiting parson. "I've got me friends to blame for it," answered convict 1323. "Why, how is that?" queried the parson. "De judge said it was de 'lectric chair fer me, but me friends got bizzy an' had de sentence chang'd to imprisonment fer life," explained the other.—Chicago Daily News.

### ORDINANCE NO. 131.

An Ordinance of the Board of Trustees of the City of Sierra Madre Ordering Certain Work to be Done in said City of Sierra Madre, and Determining that Bonds Shall be Issued to Represent the Cost Thereof.

The Board of Trustees of the City of Sierra Madre do ordain as follows: Section 1. That the Board of Trustees of the City of Sierra Madre deems it to be required by the public interest and convenience and hereby orders the following street work to be done, to-wit:

First: That said Windsor Lane, from the north property line of Central Avenue on the south to the south curb line of Dixie Drive on the north, including all intersections, (except such portions of said street and intersections as are required by law to be kept in order or repair by any person or company having railroad tracks thereon, and also except such portions of said street and intersections as have already been graded to the official line and grade, oiled and accepted by said city) be graded and oiled in accordance with the plans and profiles for such work on file in the office of the City Engineer of said city, and city specifications for the grading and oiling of streets on file in the office of the City Clerk of said City, said specifications being numbered 10.

Second: That a cement curb be constructed along both sides of said Windsor Lane from the north property line of Central Avenue on the south to the south curb line of Dixie Drive on the north (except along such portions of said street between said termini where a cement curb has been constructed to the official line and grade and accepted by said city), in accordance with the plans and profiles for such work on file in the office of the City Engineer of said City, and city specifications for the construction of cement curbs on file in the office of the City Clerk of said city, said specifications being numbered 2.

Third: That a cement gutter one (1) foot in width be constructed along both sides of said Windsor Lane from the north property line of Central Avenue on the south to the south curb line of Dixie Drive on the north (except along such portions of said street where a cement gutter one (1) foot in width has been constructed to the official line and grade and accepted by said city), in accordance with the plans and profiles for such work on file in the office of the City Engineer of said City, and city specifications for the construction of cement gutters on file in the office of the City Clerk of said City, said specifications being numbered 8.

Fourth: That cement swales be constructed along and across said Windsor Lane between said termini at such places and of such dimensions as are shown on the plans and profiles for such work on file in the office of the City Engineer of said City, and in accordance with city specifications No. 7 for the construction of cement swales on file in the office of the City Clerk of said City.

Notice is also given that said Ordinance provides as follows:

Section 2. That the said Board of Trustees of the City of Sierra Madre finds, upon estimates of the City Engineer of said City, that the cost of said proposed work or improvement will be greater than fifty (50) cents per front foot along each line of the said street so proposed to be improved as hereinbefore set forth, including the cost of intersection work assessable upon said frontage, and said Board of Trustees determines that serial bonds shall be issued to represent the cost of said work or improvement; said serial bonds shall extend over a period ending nine years from and after the second day of January next succeeding the date of said bonds and an even annual proportion of the principal

sum thereof shall be payable by coupon on the second day of January every year after their date until the whole is paid; and the interest shall be payable semi-annually by coupon on the second days of January and July respectively of each year at the rate of seven (7) per cent. per annum on all sums unpaid until the whole of said principal and interest are paid. Said bonds shall be issued in accordance with the provisions of an Act of the Legislature of the State of California, entitled "An Act to provide a system of street improvement bonds to represent certain assessments for the cost of street work and improvement within municipalities and also for the payment of such bonds," approved February 27, 1893, and of all acts supplementary thereto or amendatory thereof.

Section 3. The City Clerk is hereby directed to publish a notice of said work inviting sealed proposals or bids for doing said work and referring to the specifications posted or on file once per week for two successive weeks in the "Sierra Madre News," a weekly newspaper published and circulated in said City, hereby designated for that purpose. Said notice shall require a certified check or bond either as prescribed by law

and for an amount not less than ten per cent. of the aggregate of the proposals. He is also directed to post said notice with specifications conspicuously for five days on or near the chamber door of the place of meeting of the Board of Trustees of said City of Sierra Madre.

Section 4. The City Clerk shall certify to the adoption of this Ordinance and shall cause the same to be published once per week for two successive weeks in said "Sierra Madre News," and thereupon and thereafter it shall take effect and be in force.

The foregoing Ordinance was adopted by the Board of Trustees of the City of Sierra Madre at a regular adjourned meeting of said Board held on the 20th day of October, A. D. 1910, by the affirmative vote of at least three Trustees, to-wit:

Ayes: Trustees Graham, Hosmer, Pegler, Steinberger and Jones.

Noes: None.

And signed and approved this 20th day of October, A. D. 1910.

C. W. JONES,

President of the Board of Trustees.

Attest: PHILIP C. CARTER,

City Clerk.

## NOTICE OF AWARD OF CONTRACT

Pursuant to statute and to Resolution of Award No. 21 of the Board of Trustees of the City of Sierra Madre, adopted on the 13th day of October, A. D. 1910, directing this notice, notice is hereby given that said Board of Trustees in open session, on the 13th day of October, A. D. 1910, opened, examined and publicly declared all sealed proposals or bids for the following work, to-wit:

First: For the grading and oiling of Suffolk Avenue from the east property line of Baldwin Avenue on the west to the west property line of Sierra Madre Place on the East, (except such portions of said street as are required by law to be kept in order or repair by any person or company having railroad tracks thereon, and also except such portions of said street as have already been graded to the official line and grade, oiled and accepted by said City) in accordance with the plans and profiles for such work on file in the office of the City Engineer of said City, and city specifications for the grading and oiling of streets on file in the office of the City Clerk of said City, said specifications being numbered 10.

Second: For the construction of cement curbs along both sides of said Suffolk Avenue from the East property line of Baldwin Avenue on the West to the West curb line of Sierra Madre Place on the East, (except along such portions of said street between said intersections, where a cement curb has been constructed to the official line and grade and accepted by said City), in accordance with the plans and profiles for such work on file in the office of the City Engineer of the said City, and City specifications for the construction of cement curbs on file in the office of the City Clerk of said City, said specifications being numbered 2.

Third: For the construction of a cement gutter two (2) feet in width along both sides of said Suffolk Avenue from the East property line of Baldwin Avenue on the West to the West curb line of Sierra Madre Place on the East, (except along such portions of said street where a cement gutter two (2) feet in width has been constructed to the official line and grade and accepted by said City), in accordance with the plans and profiles for such work on file in the office of the City Engineer of the said City, and City specifications for the construction of cement gutters on file in the office of the City Clerk of the said City, said specifications being numbered 8.

And thereafter, to-wit: On the 13th day of October, A. D. 1910, said Board of Trustees awarded the contract for said work to the lowest regular responsible bidder, to-wit: to S. M. Sevier, at the prices specified in his proposal on file for said work, to-wit:

For such grading and oiling the

## WHAT IS THEIR EXCUSE?

Oxnard Courier Believes All California Papers Should Boost the Exposition.

The Oxnard Courier wants to know what excuse any California paper has for not boosting for the Panama-Pacific Exposition. Commenting on the indifference of some and opposition of others to the movement, the Courier says:

"The editor of the Santa Ana Blade refused the invitation to be the guest of the San Francisco and San Diego Exposition companies at Santa Barbara because he was afraid it would put him under obligations to boost for a \$5,000,000 bond issue for the benefit of San Francisco. The Blade man made a mistake. He should have gone to Santa Barbara and listened to the San Francisco and San Diego speakers. A judge would be a poor jurist who makes up his mind before he hears any of the arguments. This fair proposition is one that is not for the glory of San Francisco, but for the glory of California as against New Orleans and Louisiana. The latter State with an assessed valuation of only one-fifth that of California has already raised six and a half millions. If the Blade and other newspapers of Southern California that did not send representatives to Santa Barbara and in the light of the developments at that conference, are not willing to shout for "San Francisco, San Diego and all California," what are they going to shout for in the World's Fair controversy? The Southern and Middle States are solid against California. The West and the East will have to pull unitedly for this big Exposition or it will go to the South. What excuse has any California paper for not boosting for the Fair in this State?"

sum of \$1.39 per lineal ft.

For the construction of such cement curbs the sum of 35 cents per lineal foot.

For the construction of such cement gutters the sum of 15 cents per square foot.

Notice is also given that said Resolution provides as follows, to-wit:

That the said Board of Trustees of the City of Sierra Madre finds, upon the estimates of the City Engineer of said City, that the cost of said proposed work or improvement will be greater than fifty (50) cents per front foot along each line of said street so proposed to be improved as hereinbefore set forth, including the cost of intersection work assessable upon said frontage; and said Board of Trustees determines that serial bonds shall be issued to represent the cost of said work or improvement; said serial bonds shall extend over a period ending nine years from and after the second day of January next succeeding the date of said bonds, and an even annual proportion of the principal sum thereof shall be payable by coupon on the second day of January every year after their date until the whole is paid; and the interest shall be payable semi-annually by coupons on the second days of January and July, respectively, of each year at the rate of seven per cent. per annum on all sums unpaid until the whole of said principal and interest are paid. Said bonds shall be issued in accordance with the provisions of an act of the Legislature of the State of California, entitled "An Act to provide a system of street improvement bonds to represent certain assessments for the cost of street work within municipalities, and also for the payment of said bonds," approved February 27, 1893, and of all acts supplementary thereto or amendatory thereof.

# AT THE THEATERS

## Belasco

"The Blue Mouse" will have its first production on any Los Angeles stage at the Belasco Theater next Monday night with every favorite member of the stock organization in the cast. In New York last season, "The Blue Mouse" was one of the biggest successes of the year and it has been given in every Shubert Theater of the country with the exception of Los Angeles. The production at the Belasco is made by special arrangement with the Messrs. Shubert and is the most important of the series of plays released by that prominent managerial firm to the Belasco company for special production in this city.

"The Blue Mouse" is just farce—stage fun in its briskest form, bright and happy throughout and with enough sprightliness in the lines and situations to lift the piece out of the ordinary run of farcical affairs and place it in a niche all by itself.

"The Blue Mouse" is the popular name given to Paulette Devine, a dancer of the New York stage. Paulette is a frivolous, light-hearted, volatile young woman possessed of a ravishing beauty and a "temperament" that induces her to do many unconventional things.

The role of Paulette Devine, "The Blue Mouse," will be played by Eleanor Gordon and will afford the new leading lady of the Belasco company a fine chance to show herself a comedienne of a high order.

Following "The Blue Mouse" the Belasco company will give the first production in Los Angeles of Pinero's great play, "The Gay Lord Quex," with Mr. Stone in John Hare's

original role of Quex, and Miss Gordon as Sophie Fulgerney the manicurist.

## Burbank

Oliver Morosco has scored another success with his first production of the new drama at the Burbank, "The Eternal Three," a play of modern domestic life by Frederick Eldridge and Reed Heustis. This play was unknown a week ago, and today it is the talk of Los Angeles. The drama itself is of absorbing interest, with its story of the woman who gave up her lover when she found he loved her sister, idealized him in spite of his perfidy and finally discovers his utter faithlessness. The production given the play by the Burbank company is of such a high order that it contributed largely to the tremendous success. The crowds have been increasing steadily with each performance, and the play will be given another week to accommodate the demand for seats.

Seldom has there been seen in a Los Angeles theater so beautiful a stage setting as the second act of "The Eternal Three." The scene painter, the property man and all the mechanical craftsmen of the Burbank worked together to produce an effect which was wonderfully harmonious and perfect. And the actors rose to the occasion and are giving a splendid lot of impersonations. Miss Marjorie Rambeau as the sacrificing sister strikes a note of pathos that reaches every heart. Miss Grace Travers is in effective contrast. A. Byron Beasley as the scamp of the piece has a thankless task, and the fact that he makes everyone hate Rand Cornell is high testimony to the art he employs. Howard Scott as the jovial German has some of the cleverest lines of the piece, and he makes every one reach home.

## Majestic

That distinguished actor, John Mason, will begin an engagement at the Majestic next week limited to one week, in "The Witching Hour," which created such a sensation when played here last year. Mr. Mason is a sincere actor and the drama probably the best the eminent author, Augustus Thomas, ever wrote, which is saying a great deal when his many great successes are considered. "The Witching Hour" was first produced at the Backett Theater, New York, where it had an uninterrupted run of over a year, then, it was sent to Boston and a few other big cities and returned to New York for another successful run of three months, and later still for a third engagement. The Messrs. Shubert, at a great expense, sent Mr. Mason and the original cast to the coast last season and played Seattle, San Francisco and Los Angeles to capacity houses every night. The story of the play is dramatic and very intense. Telepathy dominates the strong scenes and demonstrates the truth of a force that has been very much doubted.
